

Let's Color Flags!

Teacher's Guide

To display your students' artwork, the flags can be cut out and mounted on construction paper; or, they can be glued to dowels or straws to create a colorful classroom flagpole display. To mount the flags on "flagpoles", follow the cutting pattern below (the shaded areas are the glue strips). Attach the finished flagpoles to the wall, or along the edge of a table or bookcase – or you can mount them on a Styrofoam base!
