Workshop 2 (out of 5)

5

What was the BEST part of the day?

- Best part of today was how the students were allowed to get involved in activities!
- Makes you want to change your community! ☺
- Good thing- Companion Flag
- Everything! PeaceSlam totally rocks!
- Information learned in both workshops on global & diversity issues
- Workshops!!! Very fun
- The workshops were fun
- Different activities
- The companion flag presentation was very good and it kept you interested while informing you
- I felt that everything was very good; there is nothing that I would change
- Companion Flag discussion
- Learning about the flag idea
- Companion Flag!
- Workshop- Companion flag; Inspiring!!
- Workshops
- The companion Flag class was very helpful

What were the two most important things you learned today?

Companion flag
Connections between everything
Flag thing, working together
I learned about Companion Flags. Also, how one person can make a difference.
I learned about the companion flag, you can make a difference.
I learned how to make initiative and actually go out and make a difference in my community
Sometimes working towards a goal isnt working until completion-- you work toward the turning point-- then the rest will fall into place
That a lot of people feel the same way and that Im not alone in some of my ideas
That a lot of people only see face value
That diversity & similarities are very important. The environment=priceless
That our world is in a very difficult period of time
That peace is fun
That we are all one living in the same world.
The Companion Flag
The idea of recognizing (celebrating) not only your diversity but also our similarities.
The little that you do makes a whole difference
The meaning of the Companion Flag
The flags
To not just see the difference in people!
To value similarities not just differences
You can always make a difference
You cant make people do things, only facilitate for it. Companion Flags.
People are both different and the same.

What was the most memorable moment of the day?

Companion Flag workshop
Companion Flag
Flag workshop
Meeting all of the great people

How do you plan to use your newfound knowledge?

Anyway possible!
By organizing something for peace
By thinking about it and doing my best to apply it to my life
Change my community
Contribute facts to inform people
Educate awareness in my community
I plan to make my school the first in Oregon to have the Companion Flag
Ill probably be even more proactive

Im going to try to get a companion flag at our school
In school, for the Companion Flag
In school, teaching others
Share w/ my school, friends, family.
Take info to school
Tell the school about the Companion Flags
To better myself as a person
To bring it to my school and share it with my classroom and be a better person
To educate others...
To help peace
To make a difference in my community
Use it in your school/inform friends/classmates
Using towards the community

Other comments?

Awesome Conference!
Give students more ground to state their opinion
I loved it. Thank you for holding it
The companion flag workshop was really great!
This was great
